01 PROJECT OVERVIEW

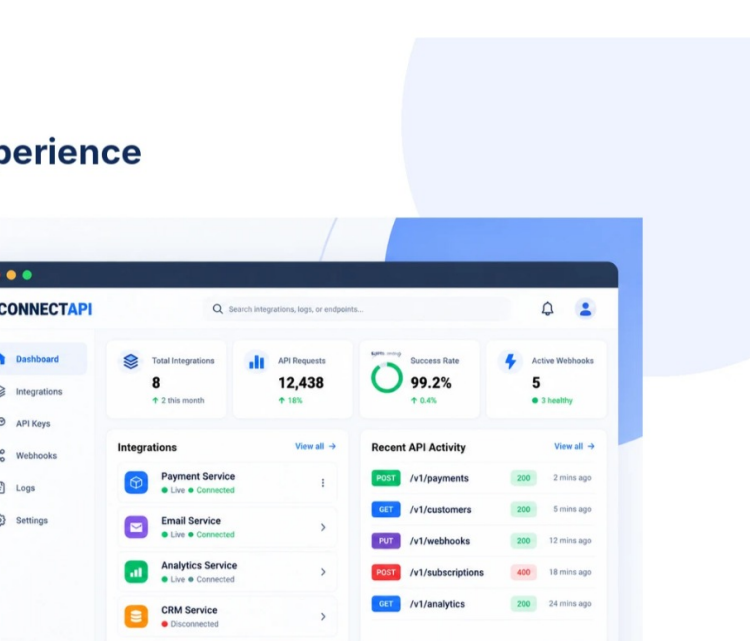

CONNECTAPI

API Integration Dashboard

A developer dashboard concept for managing integrations, webhooks, API activity, logs, and connection health.

MY ROLE

UI/UX Design • Developer Experience • Backend Learning

02 GOALS

What this concept is designed to achieve

1. Make integration health and API activity easy to monitor.
2. Reduce complexity around webhooks, keys, and service connections.
3. Create a developer-focused interface with clear status feedback.

STYLE GUIDE

Clean. Consistent. Focused.
